DETAILED ACTION

Allowable Subject Matter

Claims 1-54 and 56-58 are allowed.

The following is an examiner's statement of reasons for allowance:

In regard to independent **Claim 1**, the closest prior art of record fails to teach or reasonably suggest, "An apparatus for storing main information and at least one supplementary information item that accompanies the main information and that conveys information about a respective parameter, comprising:

a determination unit configured to determine, for each supplementary information item having a plurality of description forms, priority for each of the plurality of description forms in advance" in combination with other elements.

In regard to dependent **Claims 2-27 and 57**, these claims are allowed because they depend on allowed independent claim 1.

With regard to independent method **Claim 28**, the closest prior art of record fails to teach or reasonably suggest, "A method of storing main information and at least one supplementary information item that accompanies the main information and that conveys information about a respective parameter, comprising:

a determination step of determining, for each supplementary information item having a plurality of description forms, priority for each of the plurality of description forms in advance" in combination with other elements.

In regard to dependent **Claims 29-54, 56 and 58**, these claims are also allowed since they depend on allowed independent claim 28.

Regarding the computer program storing **Claim 56**, this claim corresponds to independent claim 28 and is allowed for the reasons disclosed above in regard to claim 28.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
